Summary

I am a junior software developer with a diploma in Full Stack Software Development from Code Institute. I'm proficient in Python, JavaScript, HTML, and CSS. After more than 20 years in the faith-based non-profit sector, I am seeking to make a career change and work as a junior full-stack engineer. Learning new technologies comes naturally to me. From previous employment I also bring extensive experience as a manager, public speaker, and visionary leader in cross-cultural contexts.

Technical Skillset

Languages:	Python, JavaScript, HTML, CSS.
Frameworks:	Django, Flask, Bootstrap
Version Control:	GitHub, Git
Deployment:	Linux, Docker, Heroku
Databases:	PostgreSQL
Libraries:	jQuery, Stripe
Additional:	Agile, UX Design, E-commerce, Affiliate Marketing, SEO
Currently Learning:	React.js, Microsoft Azure Cloud Administration

Education

Jan 2024 - Present	Code Institute | Dublin, Ireland (Remote) Diploma in Full-stack Software Development
2013 – 2016	South African Theological Seminary | Johannesburg, South Africa Master's Degree in Integrative Theology (Cum Laude)
2005 - 2008	Auckland Park Theological Seminary | Johannesburg, South Africa Bachelor's degree in theology (Cum Laude)

Portfolio Projects

- **Heritage Company -** E-commerce platform selling luxury watches. Includes a functioning checkout and payment system with email verification \| Django, Python, JavaScript, PostgreSQL, Stripe API, HTML, CSS
  GitHub - https://github.com/leonp84/code-institute-project-5
- **TaskFlow -** A free, customisable Kanban Webapp that allows users to keep track of tasks. With a built-in theme toggle. Account registration is needed. \| Django, Python, JavaScript, PostgreSQL, HTML, CSS
  GitHub - https://github.com/leonp84/code-institute-project-4
- **VaultGuard -** A mock password manager, that allows users to store a list of usernames and passwords that are encrypted with a master key. \| Python
  GitHub - https://github.com/leonp84/code-institute-project-3

- **Entertainment Web App Frontend -** A mock video streaming platform showcasing more advanced front-end design. From a challenge from frontendmentor.io. | Django, Python, JavaScript, PostgreSQL, HTML, CSS
  GitHub - https://github.com/leonp84/fm8-entertainment-web-app
- **Dictionary App -** Dictionary web app with audio pronunciation, using the API from dictionaryapi. From a challenge from frontendmentor.io. Django, Python, JavaScript, PostgreSQL, HTML, CSS
  GitHub - https://github.com/leonp84/fm7-dictionary-app

Work Experience

April 2016 - Present **Pastor & Counsellor** **Freie Christengemeinde Linz** **Linz, Austria**
- Team Leader, project manager, counsellor and preacher responsible for visionary leadership on new projects. Role involved regular public speaking and leading of meetings.
- Maintained the church's online presence, local membership database and website.

Sept. 2014 – March 2016 **Sabbatical** **Cape Town, South Africa**
- Extended family break in South Africa, after living in Asia and preparing for immigration to Europe.

Sept. 2012 – August 2014 **Senior Pastor** **Dongshin Church** **Daegu, South Korea**
- Pastor and team leader responsible for visionary leadership and regular teaching, preaching and counselling in an expatriate church.

August 2010 – August 2012 **English Teacher** **Manchon & Yesol Schools** **Daegu, South Korea**
- Teaching English classes to 20+ Korean students in a cross-cultural environment.
- Designing Educational material and basic digital linguistic games.

Additional Information/Interests

- Participated in Code Institute September '24 **Hackathon** 'Classical Music Month'. Planning, design, sprints, project management, deployment. Our team project: https://alvor1991.github.io/Hackathon-Team1/
- I have a passion for **Home Automation,** specifically the open source Home Assistant software and community. I have built my own ESP32 sensors that I use for customised home automation.
- From 2009 – 2013 I built various **SEO-focused content websites** (now sold or given away) around personal interests that used Google AdSense and affiliate marketing to generate revenue for myself.
- I attend **Coding Community meetups** with FaithTech in Linz.
- Regular engagement on **Slack tech forums** and use of Google meetings.

Languages

English (Fluent), Afrikaans (Fluent), German (Professional Working Fluency)
